BELT CONVEYOR SOLUTIONS

An exclusive line of belt conveyor products to help you quickly and safely splice, clean, and maintain your conveyor belt.

Maximising Belt Conveyor Productivity

Increase Uptime
Mechanical fastening systems that deliver performance, long life, and easy installation.

Correct Belt Mistracking
Belt Trackers that help guide the belt back to the correct path preventing uneven belt wear and off-center loading.

Enhance Safety
Exclusive line of belt maintenance tools for enhanced worker safety.

Eliminate Spillage
Maximum spillage control with high quality skirt clamp systems.

Reduce Carryback
Wide variety of belt cleaning systems that efficiently remove even the toughest, stickiest material.

Reduce Belt Slip
High quality, ceramic and rubber lagging to prevent belt slip and extend the belt and pulley life.

Protect Tail Pulleys
Belt Plows prevent damage to the belt and the pulley and allow for easy cleanup.

Protect Belts
DRX™ Impact Beds reduce vibration and deaden impact energy to protect the belt.
